5. Railroad workers said that military trains had been seen on the Schwerin-Bad Kleinen line from 23 to 27 April 1950 at a rate of two or three per day. Tanks had been observed on some trains. **

25X1A

- * Comment: The trains observed on 24 and 25 April and, possibly, also the train seen on 27 April 1950 carried component units of the

for Rerik, Rostrow Peninsula. German civilians have been evacuated from the peninsula since the Fall of 1949 because a Soviet AAA training school was to be established there. ***

25X1A

Comment: The train may have carried component units of the 94th Gds Mtz Rifle Div from the Schwerin area, as the observation of tanks on some trains precludes the assumption that they also carried units of the 3rd Gds AAA Div.
